Comprehensive Avionics Kit

## AVI5140F

henchman products

The Henchman Avionics Flyaway kit is one of our standard kits, has been selected by professional aircraft engineers and is already used in MRO facilities of some of the worlds leading airlines.

This kit contains a selection of the most used hand tools including crimping and contact installation as well as a Fluke Multimeter. The tools of world leading brands such as Astro, Knipex, Wiha, Snap-On and for sockets and wrenches predominantly Proto or Stahlwille (depending on your preference) are all laid out in the premium foam inserts we manufacture in-house.

Tools are laid out in two colour high density foam which provides visual tool control. Excellent for flyaway applications or issued as a personal tool kit in a robust and conveniently deployable All-In-One toolbox.

Specifications

- High quality tools for general aviation requirements
- Water- and dustproof hard case with wheels and telescopic handle
- Visual tool control to reduce the risk of foreign object debris (FOD)
- Suited to PART 145 compliant organisations
- Swap Stahlwille to Proto at your request
- Total Weight is approximately 27kg
- Dimensions: 581 x 381 x 455

About Henchman

Henchman Products is an international single-source supplier of premium tools, specialised tooling solutions, repair and calibration services and toolkits for specialised industries such as aerospace, electronics, defence, field and plant service, transportation, mining & energy, assembly & manufacturing and more.

Henchman toolkits with Visual Tool Control and Electronic Tool Control are renowned for their superb quality finish and design and are available for purchase globally.

Whatever your requirements, with our range we can empower you to work professionally!
