## USB Soldering Iron

### Applicable

- Production line
- Institutes
- Enterprises
- Education and Practice
- Maintenance
- Hobby

### Features

- Especially suitable for precision welding.
- USB standard interface of power bank or adapter supply it with electricity.
- Portable design. It can be carried after its handle sleeve is inserted. Don't need to wait it cold down.
- Contact temperature-sensed design, make its temperature sensor more sensitive and temperature more accurate.
- Smart recognition of working or non-working status.
- Multiple soldering tips for option.

### Specification

Voltage:	5V DC
Current:	2A
Power:	<b>10W</b>
Temperature range:	150°C ~ 450°C
Temperature stability:	± 2°C (in still air, no load)
Heater:	<b>10W integrated heater</b>
Temperature offset range:	± 50° C / ± 90° F
Auto-sleep mode:	Support

### Package list

USB Soldering iron :	1 Unit
Soldering iron stand :	1 PCS
Manual :	1 PCS
Certificate of quality :	1 PCS
