

LED Traffic Wands

NSP-1632

NSP-1636

NSP-1634

The Model 1600 Series LED Traffic Wand features a bright lumen output with a red/yellow/blue cone and a black-formed handle for ultimate grip and comfort. One body mounted push button controls the On/Strobe/Off lighting functions. Pressing the button once, turns the light on constant-on mode, pressing the button a second time causes the light to strobe, and a third press of the button turns the light off. Power comes from 3 premium AAA batteries (included). The lightweight Nightstick LED Traffic Wands are ideal for daylight or night applications and are the perfect choice for air ground crews, directing traffic, or marking a potentially hazardous area.
